WORK EXPERIENCE

Realatte Ventures Limited, Andheri (E) | Full Stack Shopify Developer, April 2026 – July 2026

- **VNH Naidu Hall** (<https://vnhnaiduhall.com/>) : Developed and deployed an internal Shopify SEO Updater app using Shopify CLI, Remix, React, Node.js, and the Shopify Admin API to automate SEO metadata management for the store; hosted the application on Render.
- **Blu Diamonds** (<https://www.bludiamonds.com/>) : Converted manually managed Shopify collection pages into Smart Collections by implementing automated product conditions, eliminating manual updates and ensuring new products were automatically displayed when they met the defined criteria.
- **Freedom Tree** (<https://freedomtree.in/>) : Implemented dynamic breadcrumbs across Shopify collection and product pages by restructuring the store's navigation hierarchy using Shopify menus and mapping breadcrumb paths based on page and product URLs, improving site navigation and user experience.

Mark Web Solutions, Borivali (W) | Frontend Developer, January 2025 – April 2026

- **Mouth Arc** (<https://moutharc.com/>) : Built schema-optimized pages and developed custom cart functionality with product mapping, dynamic discounts, and automatic freebie inclusion using Shopify Liquid, HTML, CSS, and JavaScript. **STORE PASSWORD: Veneers**

- **AlignerCo Canada** (<https://alignerco.ca/>) : Integrated Google Apps Script for automated data persistence, streamlining the processing of 2,500+ monthly enquiries.
- **AlignerCo** (<https://alignerco.com/>) & **SmilePath Australia** (<https://smilepath.com.au/>) : Delivered 100+ UI enhancements and bug fixes across multiple Shopify storefronts (Europe, Asia Pacific, USA, and Australia), improving site stability, performance, and user experience.
- **Aligner32** (<https://aligner32.com/>) : Built the Shopify storefront from scratch using the Horizon theme with schema-based sections, implemented Shopify Markets for multi-country support, and leveraged Metafields and Metaobjects for scalable content management.
- **Vinod Steel** (<https://www.vinodsteel.com/>) : Developed A+ product pages, integrated the Razorpay payment gateway, and built paginated collection pages to enhance the shopping experience on Shopify.
- Developed a dynamic blog listing page that fetches blogs from Shopify Blog, implemented category-based filtering by assigning blogs to multiple categories, and used built-in pagination for faster rendering and better performance for All Main Projects.
- Created **Metaobjects for Authors and Reviewers** and implemented bidirectional mapping between blogs and metaobjects (**author/reviewer ↔ blogs**) to manage and display structured author and reviewer information for All Main Project.
